PROFESSIONAL SUMMARY

Senior Backend Engineer and team lead with 4+ years of experience building high-scale, regulated payment systems in Java and Spring Boot. Led a team of 8 engineers delivering India's national Central Bank Digital Currency (CBDC / Digital Rupee) platform and UPI instant payment products for HDFC Bank and Bank of Baroda, under Reserve Bank of India (RBI), NPCI and SEBI frameworks.

Built a 6,000 TPS transaction engine at 99.9% availability, a real-time securities settlement platform settling INR 7B+ (INR 700+ Crore) daily, and a disbursement engine crediting 100,000+ wallets in 30 minutes. Targeting Senior Backend, Payments Engineer and Tech Lead roles with Dubai banks, digital banks and fintechs.

CAREER HIGHLIGHTS

- **Real-time settlement:** Demat 2.0 settles INR 7B+ (INR 700+ Crore) daily with same-day finality via atomic Delivery-versus-Payment (DvP).
- **High throughput:** CBDC transaction engine sustaining 6,000 TPS with 99.9%+ uptime across pilot and production.
- **Global Fintech Fest launches, four years running** for HDFC Bank and Bank of Baroda: CBDC–UPI Interoperability (2023), CBDC Offline Payments (2024), Programmable Tokens and Discount Voucher (2025), Demat 2.0 (2026).
- **Leadership:** led a team of 8 engineers; promoted twice in 4 years; WOW Machine Award (Backend Engineering), Mindgate Solutions.

CORE SKILLS

- **Payments & Fintech:** Instant / Real-Time Payments, UPI, UPI Mandate & AutoPay, Digital Wallets, Merchant & POS Payments, Card Network Integration (RuPay), Payment Gateway Integration, BNPL / EMI, Cross-Border Remittance
- **Digital Currency & Capital Markets:** CBDC, Programmable Money, Tokenisation, Tokenised Securities, DvP Settlement, Secondary Market Settlement, DLT
- **Architecture & Reliability:** Distributed Systems, Microservices, Event-Driven Architecture, System Design, High Availability, Scalability, Idempotent Processing, Reconciliation, Settlement Systems
- **Compliance & Leadership:** KYC/AML, RBI / NPCI / SEBI / FEMA Compliance, Payment Security, Fraud Detection, Team Leadership, Mentoring, Agile

PROFESSIONAL EXPERIENCE

Senior Software Engineer

Mindgate Solutions Pvt Ltd | Mumbai, India | Aug 2026 – Present

- Lead and mentor a team of 8 engineers across design, delivery and production support of bank-facing payment and settlement platforms.
- Lead backend design of Demat 2.0, a securities settlement platform enabling atomic DvP between tokenised securities and CBDC, settling INR 7B+ (INR 700+ Crore) daily in real time.
- Own wallet architecture, API specifications and settlement-flow design, replacing pay-first, receive-later models with simultaneous, guaranteed exchange of assets and payment.

Software Engineer

Mindgate Solutions Pvt Ltd | Mumbai, India | Dec 2022 – Aug 2026

- Led a team of 8 engineers on national CBDC programs, delivering Global Fintech Fest launches in 2023, 2024 and 2025 for HDFC Bank and Bank of Baroda, all shipped on time.
- Architected a distributed, tokenised transaction engine for India's CBDC (Digital Rupee) platform, sustaining 6,000 TPS with horizontal scalability and 99.9%+ uptime.
- Built wallet lifecycle APIs (onboarding, issuance, transfer, redemption, burn) as Java and Spring Boot microservices.
- Implemented idempotent transaction processing with replay protection, ensuring zero duplicate credits under retries.
- Designed Apache Kafka asynchronous workflows and Redis / Aerospike distributed caching for low-latency transaction validation.
- Built reconciliation and settlement pipelines with full audit trails; resolved production incidents and led root-cause analysis under high load.

Junior Software Engineer
Mindgate Solutions Pvt Ltd | Mumbai, India | May 2022 – Dec 2022

- Developed outward remittance modules under RBI's Liberalised Remittance Scheme (LRS), with FEMA compliance and Oracle-backed settlement and reconciliation.
- Built audit-ready logging and regulatory reporting for cross-border payments, and contributed to the initial CBDC platform build.

KEY PROJECTS

- **Demat 2.0 Securities Settlement (Jul 2026 – Present):** atomic DvP between tokenised securities and CBDC, settling INR 7B+ daily; unveiled by the RBI Governor and SEBI Chairman at GFF 2026.
- **CBDC on Google Pay (TPAP) (Jun 2025 – Jan 2026):** secure API gateway, real-time authorisation and settlement, and Kubernetes-based failover for consumer-scale CBDC.
- **CBDC Discount Vouchers (Aug 2025 – Nov 2025):** issuance and redemption microservices with fraud detection, integrated with merchants via Xaults; millions of monthly transactions.
- **Government & Enterprise Disbursement Engine (Jun 2025 – Aug 2025):** 100,000+ wallets credited in 30 minutes; INR 200M+ (INR 20 Crore) monthly and INR 50M+ per scheme cycle.
- **CBDC Programmable Tokens (Mar 2025 – May 2025):** rule-engine controls restricting spend by merchant category, geography or usage, with full token lifecycle and audit trails.
- **CBDC Offline Payments (Nov 2024 – Feb 2025):** offline P2P/P2M transfers with double-spend protection and deferred settlement; POS integration including Pine Labs.
- **UPI Mandate – Secondary Market Settlement (May 2024 – Oct 2024):** low-latency fund block/release for trades under SEBI frameworks.
- **RuPay Credit Card on UPI (Nov 2023 – Apr 2024):** led backend for real-time EMI conversion (BNPL) and UPI PIN credit authorisation.
- **CBDC–UPI Interoperability (Jul 2023 – Oct 2023):** CBDC payments at 50M+ UPI QR points with 99.8% success during pilot.

TECHNICAL SKILLS

- **Languages:** Java (8, 11, 17, 21), SQL
- **Frameworks:** Spring Boot, Spring Batch, Microservices, REST APIs, JUnit
- **Databases:** PostgreSQL, Oracle Database, Redis, Aerospike, NoSQL
- **Messaging:** Apache Kafka
- **DevOps & Cloud:** Docker, Kubernetes, Red Hat OpenShift, CI/CD Pipelines
- **Architecture:** Distributed Systems, Event-Driven Architecture, Microservices Architecture, Distributed Caching

EDUCATION

- **B.E., Computer Engineering** | Shivajirao S. Jondhale College of Engineering, Maharashtra, India | 2017 – 2021 | Grade: A
- **Diploma in Computer Technology** | Shivajirao S. Jondhale College of Engineering, Maharashtra, India | 2013 – 2017 | Grade: 70%
